

Grid Touch

Control Ready Interfaces.
Powered by Grid Viewer OS.

OVERVIEW

Grid Touch is a range of professional, wall-mounted Android™ touch interface panels designed for modern AV and experience control environments. Built specifically to run custom designed interfaces created in Grid Studio software. Grid Touch provides a simple, consistent, operator or room control surface.

Designed to work seamlessly with Grid Studio or Grid Runtime deployments, Grid Touch panels receive streamed user interface frames created in Grid Studio, enabling fast deployment of control points across venues, studios, corporate environments, museums, visitor attractions, and installation projects.

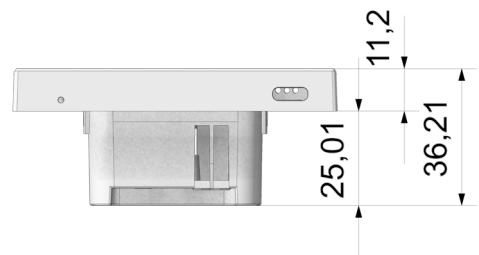

Grid Touch hardware supports PoE for powering your wall power panel over Ethernet to reduce cabling and simplify commissioning. Grid Touch devices come in 4", 8", 10" and 15" display sizes and run Grid Viewer OS, providing performance stability, predictability, and a purpose-built UI experience.

PRODUCT SPECIFICATIONS:

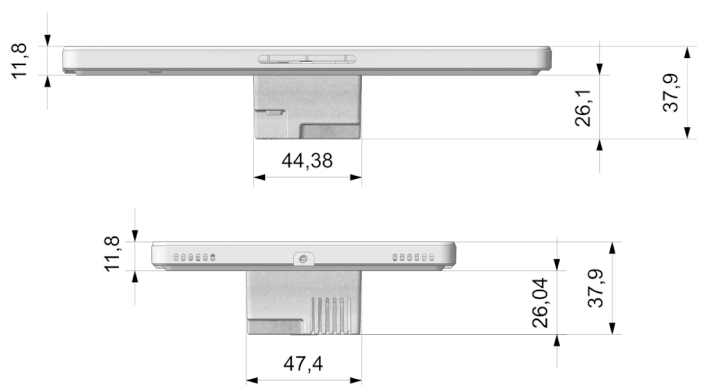

Product Model	GRID Touch 4	GRID Touch 8	GRID Touch 10	GRID Touch 15
Description	4" Android Touch Panel with Grid Viewer OS	8" Android Touch Panel with Grid Viewer OS	10" Android Touch Panel with Grid Viewer OS	15" Android Touch Panel with Grid Viewer OS
